

UNDERGROUND POWER CABLE UP TO 46KV ENGINEERED FOR LIFETIME RELIABILITY & EASY INSTALLATION

Manufactured in the United States and backed by a lifetime warranty, **Kerite® underground power cable** combines proprietary compound material technologies with a cable design engineered for long service life, field friendly preparation, and reliable system performance. Manufactured in the United States, Kerite provides utilities and engineering partners with a differentiated **Discharge Resistant EPR Insulation (DR-EPR)™** cable solution back by experienced technical support. Kerite cable is recognized as Discharge Resistant by **ICEA** and **AEIC**.

THREE DIFFERENTIATORS. ONE KERITE CABLE DESIGN.

- | | |
|---|---|
| 01
PERMASHIELD®
Non-Conductive
Stress Control Layer | <ul style="list-style-type: none">• Reduces average electrical stress in insulation• Minimizes stress enhancement at conductor-shield protrusions• Enables 100% electrical testing during extrusion |
| 02
DR-EPR
Discharge Resistant
EPR Insulation | <ul style="list-style-type: none">• Resistant to partial discharge degradation• Supports long-term dielectric performance• Long-term stability in wet environments |
| 03
FREE STRIP
INSULATION SHIELD
Simpler Cable Preparation | <ul style="list-style-type: none">• Faster, easier shield removal• Less physical effort during cable preparation• Reduces risk of damage to underlying insulation |

EASY INSTALLATION DESIGN

FLEXIBLE DR-EPR
SIMPLIFIES HANDLING

THERMOPLASTIC SHIELD
EXPEDITES SPLICE AND TERMINATION PREPARATION

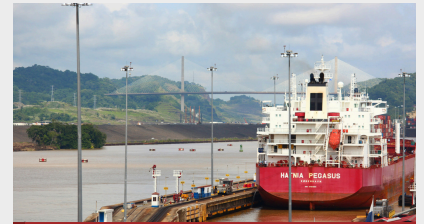

WORKMANSHIP RELIABILITY
REDUCES POTENTIAL INSULATION DAMAGE

POWER FOR LIFE

SINCE 1854 THROUGH THE NEXT ERA.

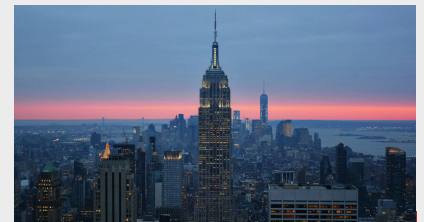

Kerite cable has powered iconic infrastructure for generations, including the Panama Canal, New York Subway and Empire State Building. Today, Kerite continues that legacy with underground solutions supporting communities like downtown Grand Haven, Michigan. More than 170 years of innovation and reliability stand behind our commitment to **Power for Life.**
